

Legal Action on Air Quality in Germany

Robin Kulpa
Project Manager Transport and Air Quality
Deutsche Umwelthilfe

03 June 2019

General objectives

- Violation of binding limit values for ambient air quality leads to negative impacts for human health
- Major sources are transportation, industry and households
- Infringement proceedings by EU commission and legal activities on national level already in progress
- The project aims to empower NGOs and citizens to take part in public participation processes and take action to court
- **Improved implementation of EU air quality legislation**

Background information

- Leaflet on legal actions for clean air across Europe
- Now available in seven different languages

Our Website

<https://www.right-to-clean-air.eu/en/>

- Background information on air pollutants, sources of emission, limit values, infringement proceedings by the EU...
- Lawsuits and decisions for 10 different countries
- Video: Your Right to Clean Air
- Press releases from DUH and Frank Bold

2 to 3 updates per year

A pair of glasses is depicted, where the frames and lenses are composed of numerous small, light blue bubbles. The glasses are centered in the upper half of the frame. The background is a vibrant blue sky filled with soft, white, fluffy clouds. The overall aesthetic is clean and fresh.

Thank you for your attention!

The project **Right to Clean Air** (*LIFE15 GIE/DE/000795*)
is co-financed by the **EU LIFE** program of the **EU Commission**.
